Biography

David R. Newby is a wealth coach- he helps people live more richly by first protecting what they have and then growing their money quickly. David has gone from being on welfare as a child to getting laid off from his first job at age 23 to being retired by the age of 32. David has been a guest on numerous radio and TV shows and a guest speaker at many seminars telling his compelling story.

Mr. Newby semi-retired at the age of 32 by using money like banks do, and he helps select consulting clients do the same. He also shows them how to protect the equity in their homes, their retirement savings, and their pensions. Mr. Newby grew up wanting to be a doctor, and now he helps clients take their "sick" finances and make them well. Americans are sick financially in general, and Newby helps his clients make sure they don't flatline financially before they die. Outliving their money is a large fear for most, and Newby has the cure! His passion is helping people who have a very clear vision of their purpose in life to create passive income streams so they can focus solely on their life purpose.

5. Possibly retire in 6-12 years or less with money you already have... or your banker's money

7. Utilize a structured system to pass on all your best assets- not money- to your heirs and charities/foundations you support
